We highly recommend not to place design over seams – Trimtex can not guarantee perfect result for this. ■ It is not allowed to remove or change placement of Trimtex logos. ■ Use only vectorized logos for production. ■ Use “Pantone Solid Coated” colors for design. ■ Colors may not appear accurate on your screen or printed paper. For a particular result ask for colortest from your Sales representative. ■ Trimtex Designer will adjust design if it’s necessary because of technical issues. ■ Copyright © Templates are property of Trimtex and allowed to use only for Trimtex products.
